

PRIMETIME BULLDOGS PET APPLICATION FORMS

The Following questions are being asked of you so that the right puppy and the right puppy placement can be made by bringing the various requirements of the puppy, breeder, and buyer into prospective BEFORE a choice is made. I hope you agree that the animal's welfare must be the foremost consideration in choosing a placement. Please answer the following questions completely and submit this form when done. **(I know this may seem rather lengthy, but if you get a bulldog from us, hopefully you will appreciate our thorough screening process years from now when you realize how unique they are. They are very special, but not for everyone!)**

Please note that all pups sold by us to be companions are sold under a pet contract with a spay/ neuter clause, and a Limited Registration. No breeding rights are being sold to our bloodline when purchasing a companion animal. The Bulldog and breeding rights are two separate things entirely. If you are interested in showing in the conformation competitions and breeding, please state this clearly in your application. Also know that we WILL NOT ship a puppy to you. All pups are picked up in person by the Buyer, and contracts are signed, with copies for each party. There are no verbal sales agreements. We do have a health guarantee and warranty against terminal genetic issues in our contracts. Up to date de-worming, vaccinations, and micro chipping will be done by us before any puppy leaves our home to go to its new home.

All monies paid to us for HOLD DEPOSIT or FINAL PAYMENT must be either in certified funds or cash. No personal checks or credit cards will be accepted for any payment. Final payment must be made prior to us allowing any Bulldog to go to its new home. No Bulldog will be reserved for you without a hold deposit being paid to us for that dog.

Also note that we do not breed for color preferences, but for health, temperament, and quality according to the Bulldog Standard. Color is the last thing being considered when we are choosing a breeding. That being said, we often get a variety of colors in our litters.

What you are interested in:

1. Are you interested in a male or female, or no preference? (Please be aware that by choosing one color or sex over another you are reducing the options of what pups may be offered to you?)
2. What is the time frame you are looking at getting a new puppy in? (Please be aware that almost all pups are sold from our waiting list, but we try and keep the list short)
3. At what age do you expect to bring a new puppy home?
4. Do you know the difference between a Full Registration and a Limited Registration?

Tell us more about yourself:
